

ADVENTURE BAY

MOTOR YACHTS LTD

WHAT MAKES OUR BOATS SO UNIQUE?

Our Motto is “Building Luxury Boats for Family Adventures”.

Boating should be fun and boats also should be designed for comfort! Building an ordinary boat is straightforward but making it extra-ordinary and more comfortable requires extra effort and draws from practical experience.

A lifetime of cruising the world, hosting and running charters on boats like these combined with our background in furniture design and manufacture has shown that small living spaces need careful development to let the good times flow. Production driven boat-builders and naval architects are often technically focussed in their boats which is important, but can overlook the parts of a boat that make it fun and leave a smile on the family's and guests faces. For owners or dealers to retro-fit the fun back into a boat can be very expensive and not feasible.

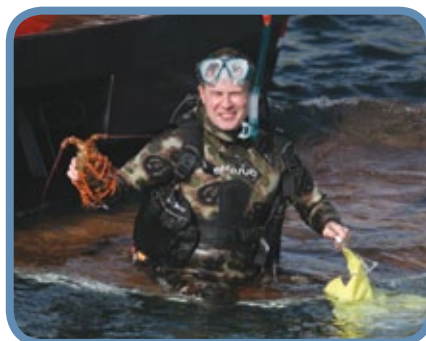

Adventure Bay Motor Yachts modifies the design and builds in practical comfortable user friendly spaces from day one with a hand crafted custom boat quality feel. Then everyone has a good time!

Here are just a few examples:

1. Creating more social C or L shape seating areas that encourage easier conversation and good times. The outdoor dinettes are best under shelter from the elements with the views out to sea.
2. Improved master cabin layouts - midships where possible for quiet nights and east-west full walk around berths for better sleep and easier access all round.
3. Engine spaces which have easier access for improved maintenance.
4. Easier tender launching systems for effortless launching of larger fun tenders, e.g. hydraulic sinking swim platforms for drive-on and drive off tender simplicity and then use as a “private beach” for easy swimming for younger or older boaters.
5. Lots of energy and cost efficient and comfort features to make life aboard more enjoyable and less effort for all.

As boats get bigger they can also get harder to run if thought hasn't been given to operating simplicity. To make your boating life better, we carefully select experienced yards who have decades of experience and have high standards of finish.

To achieve this without the expensive one-off custom price tag, we now favour experienced Taiwanese builders, who are using the latest composite fibreglass technology. For 30 years their industry has produced tens of thousands of luxury vessels for the US live-aboard cruising market. Adventure Bay manages the build closely using NZ boat-builders, Surveyors and Naval Architects to achieve very high traditional finish standards for you to enjoy.

OUR PAST AND PRESENT

MOTOR YACHTS WE HAVE HAD BUILT UNDER OUR DIRECT SUPERVISION:

Nordic Star 3200 Waterjet picnic boat 32ft LOA 2007

Activa 3300 Picnic Boat Cruiser 34ft LOA 2007

Activa 4500 Classic Cruiser 46ft LOA 2007

Activa 4800 Waterjet Express 52ft LOA 2010

Activa 5800 58ft LOA 2007

Activa 6400 Classic 70ft LOA 2008

Activa 6400 Contemporary 70ft LOA 2009

Pacific Harmony Custom Powercat 86ft LOA 2003-2005

LUXURY INTERIORS AS STUNNING AS THE EXTERIORS

ASSISTED IN CONSTRUCTION/ADVISING AND OR OPERATIONS:

Pacific Mermaid 105ft Custom Superyacht 1996-present

43ft Custom Powercat 2008-2010

WHAT THE PRESS AND OUR CUSTOMERS ARE SAYING ...

" Adventure Bay Motor Yachts took its last 5800 and made a lot of small improvements right throughout... The result is a boat that will be right at home going to Fiji or the Whitsundays with long-range economy, or cruising around coastal waters. "

Pacific Motoryacht June 09

" I'm happy with the quality and service from our Activa. It's great value for money, lots of luxury, well built and seaworthy. "

Mike Lambert, Activa 5800 Owner

" We have had a fantastic summer on our new Activa. We and our numerous guests are impressed with its standard of luxury, amenity, construction, and finish. It has proved sturdy in all conditions encountered, well laid out for multiple passenger requirements, and very comfortable. "

W. L. Auckland, Activa 4500 Owner

" The latest arrival – the 6400 Pilothouse (LOA 70feet) is not only the biggest of the local fleet, it's easily the most sumptuous. Crucially though, it's an eminently sensible vessel. "Luxury" and "pragmatism" aren't often easy shipmates, but they co-exist happily in this one. "

Tradeabout NZ on the Activa 6400 Feb 09

" The first thing that strikes you about the trawler-style Activa 6400 is the attention to detail – every detail. This is no trawler with some high spec additions; this is a painfully planned, beautifully crafted example of marine magnificence.

This is an example of the superior craftsmanship the Asian market is capable of that can rival the quality of some of the world's best manufacturers. "

Sea Spray on the 6400 Dec 08

" Versatile and luxurious, the 6400 is a top-of-the market masterpiece. "

NZ Herald Dec 08
